beyond it.**

See a different world.

See a different world.

Our extensive security experience gives us a unique perspective to see a different world – a safer world, filled with opportunity and progress. Today, we proudly stand guard to protect what really matters: the safety and welfare of people and property all over the world, because we're determined to make it a safer place.

GLOBAL EXPERIENCE, LOCAL KNOWLEDGE

To everyone who only sees the worst, we say look closer, we say open your eyes to all that is good.

PROTECTING HOMES, WORKPLACES AND COMMUNITIES

Securitas South Africa's strength is our people. People make the difference. They are the heartbeat of the company. Their skills and talents are the driving force behind our work and success. We are committed to recruiting, training and developing them to be the industry's best performers and your Every Day Heroes.

OUR VALUES

INTEGRITY

We prioritize trust and honesty, the foundations of integrity. Entrusted to work independently and handle valuable assets. Unwavering moral standards are embedded deeply into all our work.

HELPFULLNESS

Helpfulness is about our employees always being ready to assist within the context of a particular assignment.

VIGILANCE

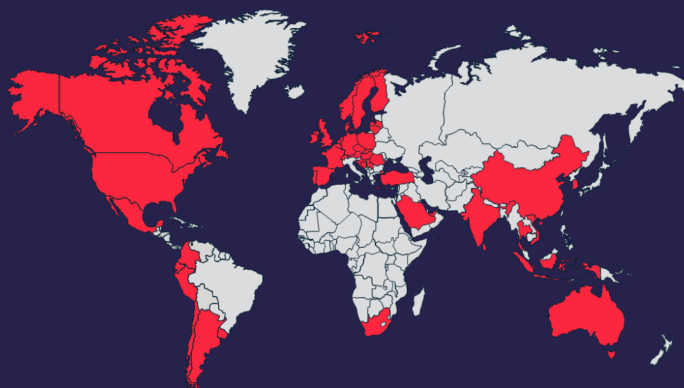

We are attentive of potential risks. Our developed intuition helps us notice what others might miss, maintaining constant awareness of threats.

OUR RESPONSIBILITY

We operate in 47 countries and employ approximately 375,000 people globally; being a responsible company is a priority to us. We conduct our business in an ethical manner, consider our environmental impact, and offer high-quality services. In this manner, we strive for all areas of our operations to be sustainable. Securitas aims to be a responsible, honest, and transparent company and we encourage an ongoing dialogue with our stakeholders: customers, vendors, stockholders, employees, and the communities in which we live and work.

For us - responsible business is good business.

WE MAKE YOUR WORLD A SAFER PLACE

OUR SERVICES

INTEGRATED BLACKBOX SECURITY SOLUTION

On - Site Guarding

We offer on-site guarding services with specially selected and trained security officers performing surveillance services tailored to your needs.

Remote Guarding

Remote Guarding are standardized, cost-effective and remotely based video surveillance services combining specially trained security officers with innovative technology.

Mobile Guarding

We provide mobile guarding services, where one security officer serves multiple premises within a geographical area.

Tailored Package

Electronic Security

Securitas delivers world-class electronic security solutions, priority service response and full project deliveries to maintain a security program that is customized to the client's unique requirements.

Fire and Safety

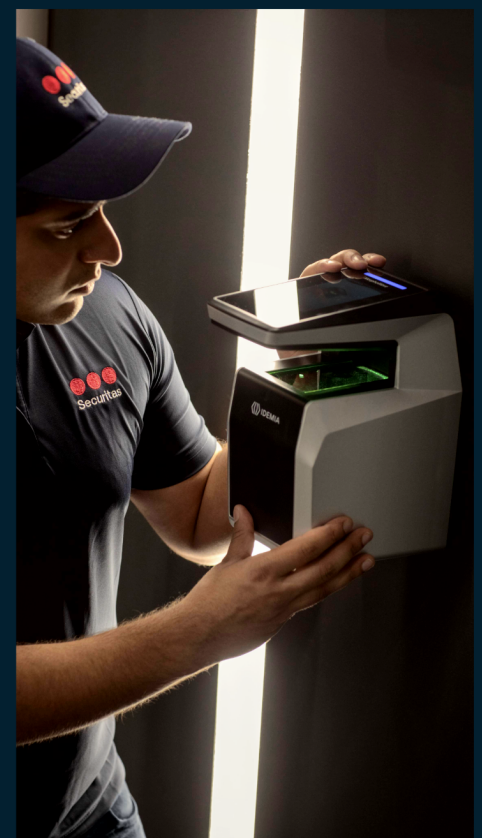

Securitas provides certified safety services, including fire prevention, first aid, evacuation assistance, and emergency planning adapted to each industry.

Corporate Risk Management

Combining cutting-edge technology with top security intelligence, our global network of experts cover every risk.

Our security experts have undertaken system integration projects of all sizes and scopes, so whether you need security system integration for a corporate office or retail store, an enterprise solution for multiple manufacturing buildings, or a complex integration for a stadium, university, hospital, or corporate campus, we provide effective results with custom-tailored system integration solutions.

OUR SOC

POLICE APPROVED SECURITAS OPERATIONS CENTRE

Alarm Monitoring

Action pattern and script-based actions after an alarm, event or system message. Alarm and video verification, handling of inbound/outbound calls, and deviations.

Track & Trace

Track & Trace Services such as monitoring and tracking of vehicles and machinery, handling Persona Positioning Alarms and providing services based on geo fencing.

Contact Centre Services

Scripting based inbound call center services for 3rd parties assuring 24/7 availability. Also handling 3rd party emergency calls and remote reception services.

SOC

Video Services

Video verification, remote video surveillance, patrols, remote escort, handling inbound and outbound alarm based calls, remote entry & exit, logging all alarm related information.

Guard Monitoring

Follow-up on safety protocols of active guards and monitoring of shifts. Ad-hoc (guard/mobile) delivery, and reacting on deviations from the guard monitoring platform.

Dispatching

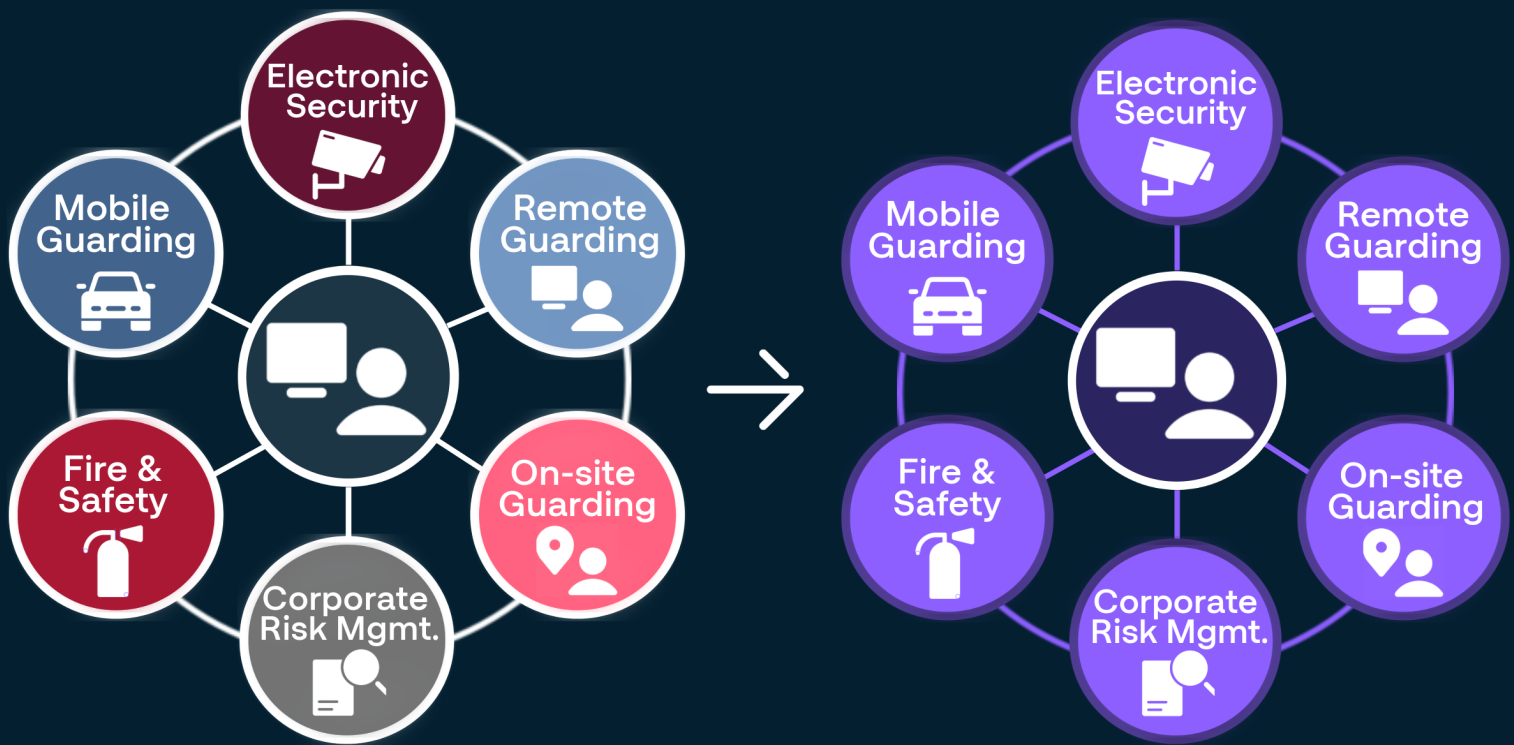

Dispatching Guards and Mobile Patrol Officers after an event, alarm or customer request, as well as third party dispatching after an event, alarm or customer request.

All our services and solutions are expertly managed and controlled in our Securitas Operation Centers (SOCs). These operation centers are where advanced technology meets skilled personnel, leveraging proven processes and strict protocols to deliver the best customer security and service. The SOC's are also where all our analytics, analysis, and reporting take place.

OUR SOLUTION

Your current mixed security suppliers → Our comprehensive Securitas solution

CONSIDERATIONS

Value for money

Integrated security solutions from a single provider, offers cost-effectiveness, flexibility and the ability to spread costs over time.

Time Saving

Using multiple providers increases administrative tasks, using one provider for end-to-end services allows clients to focus on other priorities.

Consistent guidance

Less than 39% of respondents had reviewed their security provision in the past year! Partnering with a single provider ensures regular security developments.

Improved response

A single provider ensures streamlined monitoring, response and reporting, which minimizes risks and ensures fast responses.

Future proofing

Tech advancements are influencing security. Partnering with a single security provider offers the advantage of tailored and up-to-date solutions.

POTENTIAL, POSITIVITY, PROGRESS
